

Keep in mind any steel building company can build a box. But, if you are wanting to build an architecturally challenging project then **Callahan Steel Buildings** is the company you are looking for.

We can do your projects on time and within your budget and we will help design from the basic steel building to the most complex designed buildings.

A lifetime quality investment!

We can meet your needs!

QUALITY BUILDINGS TO LAST A LIFETIME

CALLAHAN
STEEL BUILDINGS

Not All Buildings Are Created Equal

CALLAHAN BUILDINGS is one of Oklahoma's oldest and larger metal building companies. With years of combined experience in the construction and manufacturing of steel buildings, Callahan Steel Buildings knows your building needs. With a variety of exterior finishes and certain dimensions, we can custom build to your high expectations (we invite you to compare us to the other building companies). Product for product, you will find Callahan Steel Buildings to be your choice.

We believe that honesty, prompt on-time performance and complete erection to meet YOUR needs are perhaps the most contributing factors to the success of Callahan Steel Buildings giving us satisfied customers in Oklahoma, Kansas and Texas.

... Large enough to serve you, small enough to know you!

"The true measure of a company's success can be found in the satisfaction enjoyed by its customers."

CALLAHAN STEEL BUILDINGS offer one of the finest Suburban Special and Basic Building packages available.

Our buildings will increase your property value and are proven to be a **Long Term, Lasting Investment**
